

UNITED STATES DISTRICT COURT District of Delaware

Terri Lee MEYER
plaintiff
vs

The Department
of Corrections,
Paul Howard et. al.

Defendants

Civil action No. 06 - 117

Request for Appointment of Counsel
for the following reasons Plaintiff
requests Appointment of Counsel:

1. There's a strong likely hood that the plaintiff is in immediate danger because of the extent the defendants

have gone to prevent Plaintiff from Filing a USC 1983 become more extensive over time.

2. The plaintiff is barred from the Law library, and all of her documents and legal books have been Confiscated.
3. All incoming / outgoing mail is being Confiscated. (They deny this yet I've only received 1 letter in the past month)
4. Plaintiff is physically and mentally exhausted, and lives in constant fear. She does not have family here and needs someone to assure that she is treated fairly, and to watch out for her best interest. There would be less harm done to plaintiff if the defendants knew she had an attorney.
5. This case may involve extensive litigation and information gathering.
6. The plaintiff is indigent.

7. The defendants are actively attempting to keep the Plaintiff from doing any legal work. On 2-10-06 George O'Conner came to inmates room with an officer to confiscate any legal work or legal books. They found nothing. Another inmate (Tyneese Atkins) informed them that I was doing legal work.
